PROFILE SUMMARY

Full Stack Web Developer with hands-on experience across frontend and backend using the MERN stack. Contributed to real-world projects like chat apps, real estate platforms, and tech newsletters. Skilled in React, Node.js, MongoDB, and modern tools like Tailwind CSS, WebRTC, and Socket.IO. Proven ability to collaborate in cross-functional teams, write clean code, and deliver optimized, scalable solutions. Currently completing a Computer Science degree at Kabul Polytechnic University.

WORK EXPERIENCE

AfghanPAY

2024 - PRESENT

Full Stack Developer

- Built and maintained full-stack applications using **Next.js**, **Express.js**, and **MongoDB**, **Redis**.
- Implemented authentication, protected routes, and secure data handling in client-heavy apps.
- Developed real-time chat features (text, file, voice, video) using **Socket.IO** and **WebRTC**.
- Optimized backend performance with **worker threads**, **NGINX** load balancing, and **AES-GCM** encryption.

SobhanSoft Afghanistan

Frontend Developer

05/2024 - 08/2024

- Active member of the Mowlana developer community, founded by an IBM engineer.
- Worked on MERN stack projects like Tech News, a platform for sharing the latest in technology and promoting developer learning.

MCIT Afghanistan

Backend Developer Intern

01/2023 - 03/2023

- Built a **Typing Test app** to help users measure and improve typing speed in real time.
- Developed efficient backend code and contributed to successful project deliveries.
- Collaborated with team to improve skills and communication.

PROJECTS

- **Gapistan (In Progress):** A real-time chat web application with messaging, file sharing, and audio/video calling features. Built using React.js, Node.js, Socket.IO, and WebRTC for seamless communication and media exchange.
- **100-Khana Platform:** A full-stack real estate platform for property rentals, sales, and mortgages. Developed with React.js, Tailwind CSS, Node.js, Express.js, and MongoDB. Integrated Google Maps API for location-based listings and deployed using PM2 and Railway.
- **Tech News:** A MERN stack newsletter app providing the latest tech updates. Built with a clean, responsive UI and structured backend for real-time content updates.
